

FUTURE CITY 2012
SATURDAY, JANUARY 28, 2012
SHEET METAL WORKERS UNION HALL
1301 S. COLUMBUS BLVD, PHILADELPHIA

The Philadelphia Regional Future City Committee is gearing up again for the 2012 Competition! Schools from throughout the Philadelphia region are working hard on their cities. Teams made up of 6th, 7th, and 8th graders are working with their teachers and engineer mentors to:

- Design a city of the future using Maxis SimCity 3000TM software.
- Build a working model of a portion of their city using recycled products.
- Write an essay about city planning and design issues.
- Verbally present their city to a panel of judges from the engineering planning, and architecture communities.

Every year all of the participating teams receive at least one special award. The Future City experience is rewarding for both students and the dedicated volunteers who make it possible.

We need many volunteers for the following opportunities. Please mark your preferences:

	I am willing to be a Mentor	Preferred school/area
	I am willing to be a Judge	<input type="checkbox"/> Competition <input type="checkbox"/> Essay
	I am willing to be Special Awards Evaluator for my organization	Organization
	I will be available at the competition and am willing to do whatever task is needed	
	I will not be able to participate this year but keep me on the list for the future.
