FUTURE CITY COMPETITION, PHILADELPHIA REGION
Virtual Competition – January 30, 2021

2020-2021 Sponsorship Program

The Future City Competition is a hands-on experience for middle school students to learn how engineers shape the world we live in. Last year, Future City Philadelphia introduced over 600 middle school students at over 50 schools to the engineering profession.

Over the past few years, the Future City Competition has won three national STEM program awards: US2020 STEM Mentoring Award for Most Innovative Hands-On Project (2017), Henry C. Turner Prize for Innovation in Construction (2016), and the UL (Underwriters Laboratories Inc.) Innovative Education Award Grand Prize Winner (2015).

To help support this educational program, complete and return the sponsorship form today!* The sooner the better so your sponsorship can be properly acknowledged in our publications and on our web site.

We look forward to including your name in the list of sponsors for the 2021 program!

*Invoicing accommodations can be arranged to meet your charitable giving requirements. Future City Philadelphia is a 501(c)(3) outreach program of Discover E so your contribution is tax deductible as a charitable contribution to the extent the law permits.

49% of Future City participants are girls. 33% of participating schools enroll at least 50% of students in a free lunch program.

“I love Future City. It makes my brain sweat!”
– Future City Student Participant

While this will be a virtual competition, we anticipate that our overall budget will be about the same as in the past. We know that the pandemic has hit many organizations hard but are hopeful that you’ll still be able to provide some funds to support this educational effort.

This Year’s Challenge:

Living on the Moon: Design a future lunar city and provide examples of how your city uses two Moon resources to keep your citizens safe and healthy.

Even with a virtual competition, we still need many volunteers: mentors, judges, special award evaluators, conferencing platform technical support, and other tasks. Please encourage your colleagues to volunteer for the competition. Volunteers will need to sign up online at www.futurecityphilly.org.
