Interested in Volunteering?

We are always looking for volunteers and mentors to work with the school teams from September-January, special award evaluators, competition judges (essay, models, and presentation/Q&A), and general competition support.

Future City® Competition Philadelphia Region

Saturday, January 20, 2024
Archbishop Carroll High School, 211 Matson Ford Road, Radnor, PA 19087

This Year’s Theme: Electrify Your Future

Design a 100% electrically powered city with energy generated from sources that keep their citizens and the environment healthy and safe.

2023-2024 Sponsorship Program

The Future City® Competition is a hands-on, real-world learning experience for middle school students to learn how engineers shape the world we live in today and tomorrow. Last year Future City Philadelphia introduced over 500 middle school students to the engineering profession.

The Future City Competition was previously awarded three national STEM program awards including the US2020 STEM Mentoring Award for Most Innovative Hands-On Project, Henry C. Turner Prize for Innovation in Construction, and the UL Innovative Education Award Grand Prize Winner.

To help support this educational program, complete and return the sponsorship form today!* The sooner the better so your sponsorship can be properly acknowledged in our publications and on our web site.

We look forward to including your name in the list of sponsors for the 2024 program!

*Invoicing accommodations can be arranged to meet your charitable giving requirements. Future City Philadelphia is a 501(c)3 outreach program of DiscoverE so your contribution is tax deductible as a charitable contribution to the extent the law permits.

Thanks to our 2023 Sponsors!

Diamond Sponsors
Bentley Systems, Inc.

**Ask about our brand new A La Carte Sponsorship options!**

The Future City Philadelphia competition is funded annually from donations made by our local design, engineering, construction, and scientific community. Several opportunities have been identified for additional corporate involvement:

- Donations made to the competition to pay for expenses. Companies that invest in the competition will, based on their funding level, receive recognition in the annual competition program, advertisement space in the program, and a link posted on the sponsor page on the Future City Philly website.

- In-kind donations of time or materials that help the committee organize and manage the competition. Your organization can provide expertise in media relations, public outreach, finance, competition planning or a variety of other functions necessary for a high quality program.

- Mentoring the competition participants to help the learn the fundamentals of engineering and problem solving.

The $60,000 budget was developed to assure all interested student teams would have an opportunity to compete and be recognized for their efforts. We are asking your organization to contribute a portion of the budget, either cash or in-kind, to demonstrate support for the Future City program.
